## ABOUT

Developer with experience creating web applications and process workflows for both business and personal environments. Although I haven't held an official developer position in software companies, I have designed and implemented real solutions: from internal applications and process automation in the workplace to web projects for associations (such as the school AMPA website) and online stores for acquaintances. I learn quickly, research proactively, and consistently deliver improvements that optimize workflow efficiency.

## EDUCATION & TRAINING

Bachelor's **Degree** in Business Administration and Management University - 2016

**JavaScript Fundamentals by SuperSimple.Dev**  
(Online english Course) 2022

**JSCamp Bootcamp Full-Stack by midu.dev**  
JavaScript Development (Online)  
Intensive bootcamp - 2025

Currently completing additional courses focused on **databases**, **Git/GitHub** version control, and **Docker** containerization.

## SKILLS

**Languages & Frameworks:** JavaScript, TypeScript, Node.js (Express), React (Next.js)

**Databases & Tools:** MySQL, REST APIs, Git/GitHub, Docker, WordPress, Strapi

**Soft Skills:** Self-taught, proactive learner, problem-solving and debugging, communication with non-technical stakeholders

**Languages:**  
Spanish - Native  
**English - C1**

## WORK EXPERIENCE

### ***Hotel California | 2012 - 2022***

Implemented a **Node.js** + **MySQL** automation system for hotel operations, including automatic cashflow transaction logging, real-time balance calculation, and daily closing tasks using scheduled cron jobs.

### ***EasyHotel Málaga City Centre | 2022 - 2025***

Internal Developer

Developed the first version of an in-house hotel operations system, including housekeeping reconciliation, operational logbook, group booking management, and parking spot control. Improved daily workflows by digitizing key operational processes.

Main focus on **API REST** with **Nodejs-Express**

### ***Four Points Flex Málaga by Sheraton (Marriott) | 2025 - Present***

PMS Expansion

Redesigned and expanded the system into a full property management platform with JWT authentication role-based access, parking reservations, group bookings with payments, maintenance reporting, multi-shift cashier tools, accounting and monthly audit features, financial reporting, inventory reconciliation, and real-time notifications. Built with **Next.js 14**, **TypeScript**, Express API, and MySQL.

### ***Freelance Web Projects | 2020 - Present***

AMPA Mariana Pineda Website

Development and maintenance of the Parents Association website, including content management, membership registration, news updates, and SEO optimization.

### **WordPress-HTML-CSS-Javascript-SEO-cPanel-Hostinger**

E-commerce Platform

Creation of a modern e-commerce solution evolving from a vanilla JS prototype to a Next.js + **Strapi** architecture and **deployments** across **Aiven**, **Render**, and **Vercel**.
